

A FEW FUNNY FIGURES

Compiled by Mr. Sayers to Refute Charges of Extravagance MADE AGAINST THIS CONGRESS.

Ex-Speaker Reed Tears the Statement All Up Into Ribbons.

MORE FILIBUSTERING IN THE HOUSE.

WASHINGTON, May 7.—In view of the fact that the regular annual appropriation bills are now in such condition as to warrant an estimate of the total expenditure which will be authorized at the present session of Congress, Mr. Sayers, of Texas, a prominent member of the Appropriations Committee, in conjunction with the clerk of the committee, has prepared for the use of the Speaker a statement of the appropriations made by these bills. Mr. Sayers today made the following explanation of this statement.

The appropriations at the first session of the Fifty-first Congress aggregated \$498,951,695. This did not include an appropriation for sugar bounty—\$10,000,000—and for dependent pensions—\$35,757,065—making the total \$544,708,760. This is the present Congress must provide for because of laws which were enacted during the first session of the Fifty-first Congress. Our estimate of the appropriations to be made at the present session of Congress is \$433,500,469. None of the regular appropriation bills have become laws, and but two urgent deficiency bills, amounting to \$1,500,000, have passed and it may be assumed that this total may be increased or decreased before the regular bills become laws.

A Liberal Allowance Made. In making the estimate I believe I have made a liberal allowance for all proper expenditures. The appropriation for the river and harbor bill, \$446,500,469, as compared with the appropriations of the short session of the Fifty-first Congress is \$433,500,469, being a difference of more than \$13,000,000. The total appropriations of the present Fifty-first Congress are \$1,068,000, and this statement which I have prepared shows that the total appropriations to be made by the present Congress will be less by about \$1,000,000 than those of the Fifty-first Congress.

The estimate of revenue for the next fiscal year, submitted by the Secretary of the Treasury, is \$425,000,000, which will mean a deficiency in revenue of \$13,500,000. The estimate of our appropriations for this session is \$433,500,000, which means a deficiency of \$8,500,000. Of course, in the operations of the Government, the sinking fund must be expended during the year, as it has been already during the present year, to the extent of about \$10,000,000.

Ex-Speaker Reed on the Statement. Mr. Reed commented on the above statement in his characteristic manner, as follows: All the above estimates are as misleading as a Democratic platform. They cover only the items passed since the House and Senate arrived at by pinning the honest expenditures of the Government on such a position as makes ever Democratic surplus among themselves, for they knew that the most honest increase they or any other Government. The Senate is a coordinate branch of the Government, and it is not the duty of the House to pin the blame on the Senate. The House is really responsible for this, after the fact, they have really done this. The House of Representatives when that time comes we shall know where we are. Until then I do not want to be misled by the House. Mr. Sayers should not put forth any estimate of the Government's expenditures, but the public should not mistake them for facts. The illusion which it is sought to create is a very old one, and it is the duty of the House to prevent it. The House of Representatives for years has been pinning the blame on the Senate. The House of Representatives, and the Secretary of the Treasury, do this. This is the duty of the House of Representatives. This is the duty of the House of Representatives. This is the duty of the House of Representatives.

Special Trust Pittsburg Campaign No. 1. These Commodore's will leave Pittsburg, Pennsylvania, by special train, via special train, leaving Union station at 7:15 a. m., May 23. The train will consist of a Pullman parlor car, the four well equipped Philadelphia, Norfolk and Western coaches, and a Pullman baggage car. The round trip rate for six knights covering the tour will be \$14 from Pittsburg, Pa., with a limit of 15 days. For the party to Philadelphia only, a round trip rate of \$9 has been made, tickets good ten days.

A DAY OF FILIBUSTER.

All the Amendments to the River and Harbor Bill Agreed to in Gross—An Attempt to Pass the Bill Fails Several Times.

WASHINGTON, May 7.—Although the House does not initiate the example of the Senate by adjourning on Friday until Monday, Saturday is usually a dull day. An early adjournment is always expected, and consequently many members devote that day to the transaction of their departmental business. But the prospect of a final vote on the river and harbor bill had the effect today of bringing together an unusually large Saturday session.

Several requests for unanimous consent were denied, but Delegate Harvey, of Oklahoma, was fortunate. He secured the passage of a bill donating to Oklahoma City, for school purposes, the military reservation at that point. The House then went into committee of the whole, Mr. Hatch, of Missouri, in the chair, on the river and harbor bill.

The pending amendment was that offered by Mr. Whiting, of Michigan, striking out the appropriation for a ship canal 21 feet in depth, connecting the waters of the great lakes between Chicago, Duluth and Buffalo, and inserting in lieu thereof a provision authorizing the Secretary of War to appoint a board of engineers, to whom shall be referred the report of Colonel O. M. Poe upon the subject of a 20-foot channel from Toledo to Buffalo through the great lakes. The board shall also report on the practicability of raising the water level of the lake and connecting harbors by damming the Niagara river.

A Sample of the Increases. Mr. Whiting's amendment was rejected—25 to 139. On motion of Mr. Henderson, of Illinois, the appropriation for the improvement of the Missouri river, between the foot of the Great Falls, in Montana, and Sioux City, Ia., was increased from \$70,000 to \$130,000. On motion of Mr. Smith, of Arizona, an amendment was adopted, appropriating \$10,000 for improving the Colorado river by the construction of a levee on the Gila river, near its junction with the Colorado, at Uta, Ariz. Mr. Blanchard, of Louisiana, offered as an additional section a proviso that in cases where the Secretary of War is granted the completion of certain works of river and harbor improvements, if no bids be received which are deemed to be advantageous to the Government, or if the Secretary deems it best for the public interest, then materials may be purchased and work done otherwise than by contract. Mr. O'Neill, of Missouri, vigorously as-

ailed the proposed section, contending that its effect would be to start in motion a vast political machine, having in its control the expenditure of millions of money. It opened the door to a great abuse of discretion. Being introduced with cries of "Vote!" "Vote!" Mr. O'Neill indignantly refused to be shouted down, declaring that the cry of "Vote!" "Vote!" sounded too much like "Pork!" "Pork!" [Laughter.] The amendment was agreed to—123 to 45.

The Amendments All Agreed To. The committee then rose and reported the bill to the House. Mr. Richardson, of Tennessee, moved that the bill be on the table. This motion was rejected—the opponents of the bill not being able to muster sufficient force to order the yeas and nays. The amendments were agreed to in gross, with the exception of the last section, upon which Mr. O'Neill, of Missouri, demanded a separate vote. The section was agreed to—yeas 121, nays 67.

Mr. Stone, of Kentucky, moved to reconsider the vote, and Mr. Blanchard moved to lay that motion on the table, pending which Mr. O'Neill, of Missouri, moved an adjournment. Rejected. Then Mr. Byrum, of Indiana, put on the part of a filibuster and made a motion for a recess until 8 o'clock, supplementing it with a motion that when the House adjourns today it be to meet on Tuesday next. But Mr. Richardson, of Tennessee, thought the adjournment should be taken until Wednesday, and made a motion to that effect. The House, however, disagreed with him, and the amendment was lost—yeas 101, nays 160.

Mr. Byrum then gave the House another opportunity to adjourn, and this time it was accepted.

RUSS HARRISON'S STOCK

Never Reached Him Because the Park Directors Refused to Issue It—The Game Wasn't Thought by Them Quite Worth the Candle.

WASHINGTON, May 7.—Charles Gibson, of St. Louis, one of the principal members of the National Park Association, testified before the Public Lands Commission today, that he and E. C. Waters, General Manager of the association, had been in Washington during the latter part of Secretary Noble's administration and the first part of Secretary Noble's administration, for the purpose of fixing up leases and answering complaints. Waters one day told witness that he was very intimate personally with Russell Harrison, and that they had been together in Montana, and that it would be useful to have Harrison's assistance. Witness always, in every enterprise, wanted as many persons on his side as he could get, and he would be glad to have Harrison's assistance. Two or three days after Mr. Waters said he was going to get Russell Harrison to help the association for 100 shares of its stock, payable in dividends. Witness replied that the association had never given any of its stock, and that besides, it would be necessary to consult the directors.

After some testimony about his interview with Secretary Noble, witness told a meeting of the directors at which the letter of Waters and the certificate of 50 shares in the name of Keens came up. Witness told the directors of his conversation with Waters, and that Waters had acted without authority, and the directors at once voted not to issue the stock.

Seven Hundred Acres to Road. WASHINGTON, May 7.—The sub-committee of the Committee on Appropriations, which has been investigating the World's Fair expenditures, today received from the public printing office the printed copy of the testimony taken. This testimony embraces 65 pages of almost 20,000 words. It will take some time for the committee to analyze it, but Mr. Dockery, the chairman of the sub-committee, expects that the report will be ready in ten days.

Saddie, Driving and Carriage Horses at Auction. Fifty head of the finest saddle, driving and speedy roadsters of the city, at the Belmont Live Stock Company, Limited, stables, 212 Pittsburgh, Pa. NEW ADVERTISEMENTS.

DO CLOTHING BUYERS KNOW THIS? A Quotation From an Eminent Authority: "The clothing industry of the United States is simply without a parallel. There is nothing like it in volume of product, value of output, variety of styles, excellence of workmanship, beauty of fashions or in general convenience and economy to be found elsewhere in the world. Including all classes, the people of the United States are more uniformly well dressed than those of any other nation. It is also true that they are enabled to array themselves thus comfortably and tastefully with less exertion than is required from the people of any other nation. Better clothing is sold to-day for less cost than ever before in the history of this country."

WE WILL VERIFY IT. The above is easily proven by a visit to our store. Never before in our history did we give such values as we do this spring. Anyone, even the poorest judge of clothing, cannot fail to see the force of this statement by examining our mammoth stock of Merchant Tailor-Made Clothing. We have an endless variety of the choicest novelties, the productions from the finest tailors of the land of the free and brave.

HALF PRICES STILL AT HALF MAST. \$10 to \$25 will buy a genuine merchant tailor-made Suit, in all styles that was originally made up to order for \$20 to \$55.

\$2.50 to \$7 will buy a pair of genuine merchant tailor-made Pants that were originally made up to order for \$6 and from that up to \$16.

THE LAST OF THE MOHICANS. \$10 will buy any of our swell Spring Overcoats—the very same we have heretofore quoted at \$15 and \$20. This is the tail end of the season and they must go. The real values of them are \$35, \$40 and \$45.

Which will sell you the following articles at price quoted, which is in every case at least from 40 to 50 per cent less than regular prices. We do this to test the relative value of the Pittsburg newspapers as advertising mediums. Some of you may remember that we made a similar test a few years ago. But many things change in a few years, and we have decided to make the test again. In order to do so thoroughly we announce below a MOST REMARKABLE SALE at MOST STARTLING PRICES, at which we offer two or three items in each department AT A NOMINAL PRICE, ranging from 1-3 to 1-2 the retail price of each article advertised. These goods will be sold only to those customers who bring this advertisement with them. At the entrances we will exchange the paper for a check, and this check must be shown at the several departments to entitle the customer to all the benefits of the sale. The actual loss to us in this transaction amounts to several thousand dollars, but we shall find out which paper does us the most good, which will save us more money than this test can possibly cost us. In order to treat all the papers fairly we offer both the better and cheaper grades of goods, and ANNOUNCE THE SAME ITEMS IN ALL THE PAPERS.

This advertisement will appear to-morrow in the following papers, viz: The Dispatch, Times, Post, Press, Leader, Telegraph, Freiheit's Freund, Volksblatt and Beobachter. It will also appear during the week in the Labor Tribune, the Trades Journal and Commoner and Glassworker.

NEW ADVERTISEMENTS.

DO YOU KNOW WHAT SCOTCH CHEVIOTS ARE? They are the toughest and most reliable fabrics woven for suitings. Constant use has little or no effect on the wear. Look well after months of hard service. Brush readily; just the thing for a BUSINESS SUIT, mostly made in the sack style, soft roll or button.

Suits to measure from \$20 to \$50. Trousers, \$5 to \$8.

Nicoll The Tailor. Custom Clothing Only. 400 Smithfield St. my3-28

M. R. THOMPSON, 311 MARKET STREET, Directly opposite Gusk's entrance. my8
